

MERCAUX

Self-Service Kiosk

Empower Customers In-store

Results & Effects

Combine digital and physical experiences for customers in-store

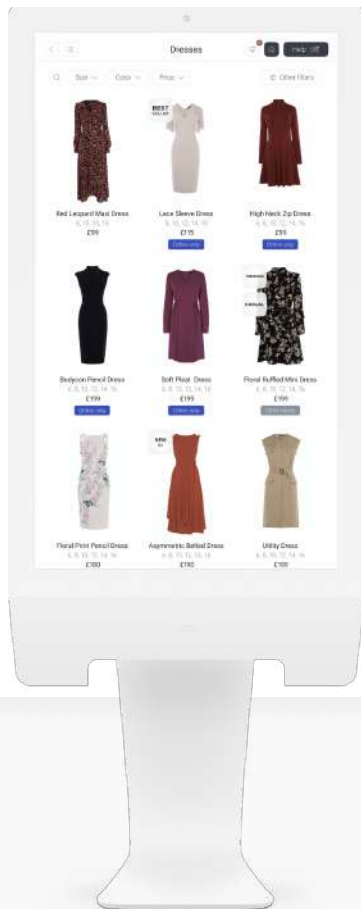

Empower and engage customers with rich content in-store

Improve efficiency and increase UPT & Conversion

Functionalities

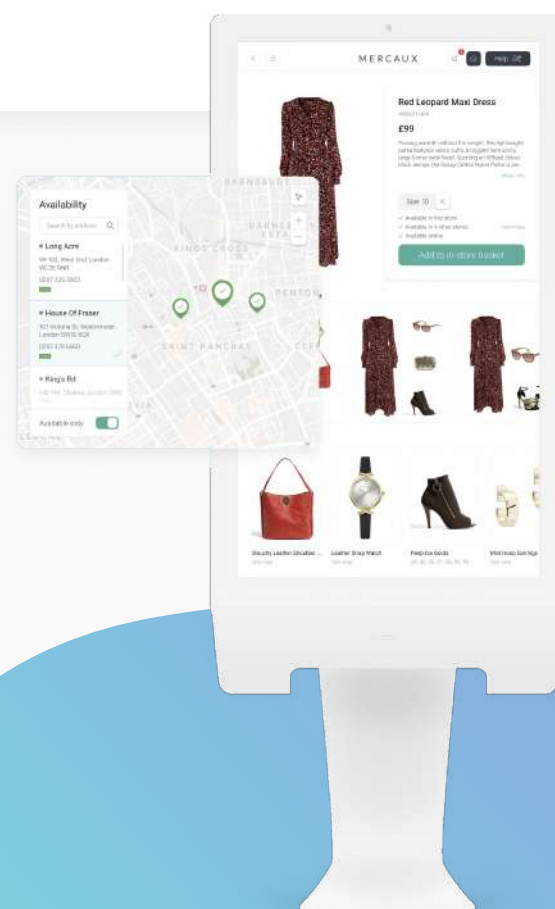

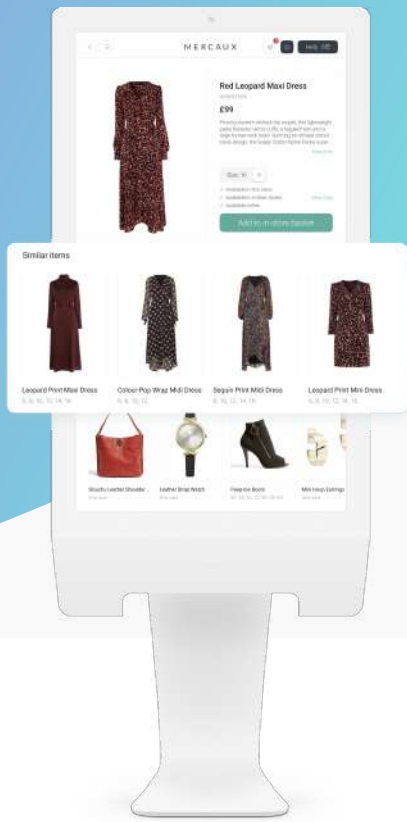

Catalogue, Interview & Search

Browse the full catalogue, follow interview questions to use powerful search and filters to find the perfect product in-store and online. Access rich content for every product.

Real-time Stock Availability

Instantly check stock levels in-store and add products to the basket for purchase now, or email the basket for later purchase online.

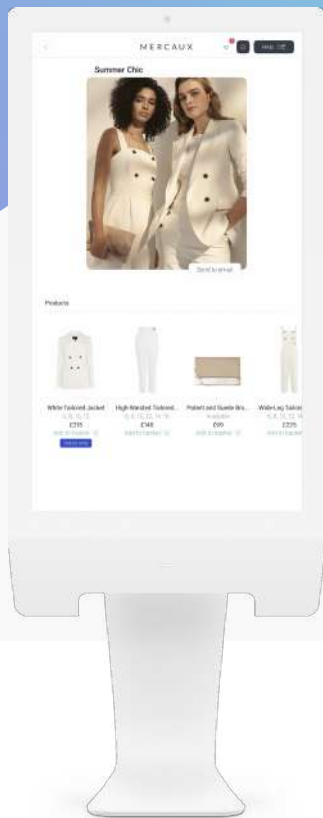

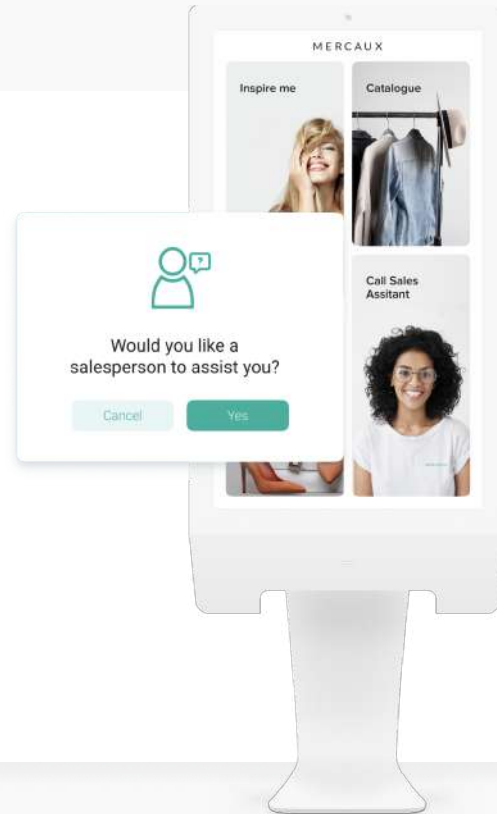

Product Not Available In-Store?

View similar product alternatives from the in-store collection when a product is out of stock or order online or in another store.

Bring In-Store Basket Online

Email (or send via text) personalised looks and baskets directly to a customer's inbox so they can view and purchase online at a later date. Give Sales Associates commission for generating online sales.

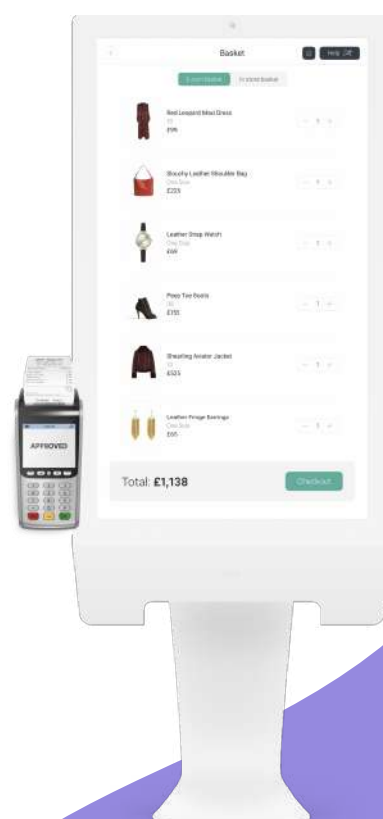

Lost Sales Recapture

Access to full product catalogue across the estate with real time inventory in-store, across other stores and online.

Self Checkout

Integrate your payment system with our Self Service Kiosk to allow customers to scan, pay and go.

If you would like to find out more about our app email, please email us on: sales@mercaux.com
